

Sustainability for young students

The next Go Zone Junior topic Sow That Seed is an exciting science and literacy topic for younger children and beginner readers.

This topic will focus on:

What is a seed? Where are seeds on plants? Seeds on the move – seed dispersal. Baby plants and how they grow Plant parts. Seed makers – flower parts. Insects that help plants. Edible gardens at school

Growing plants in the classroom and edible school gardens are ideal for inquiry based learning experiences for children, with hands-on activities to engage their interest and make learning about plants fun and meaningful. It also encourages healthy eating habits.

This topic is suitable for students working at Years 1-2. Contact NiE today to place your order.
